## “Brilliant Bug” Class Butterfly Release On First Day

*For immediate release: August 21, 2007*

*Tampa, Fla.*

Multiage “Brilliant Bug” students participate in a first day of school tradition at Independent Day School-Corbett Campus. Each year, first and second graders in both Mrs. Borosh and Mrs. Jones’ class release butterflies on the first day of school. They learn that according to legend, if a wish is made on a butterfly, it will come true if the butterfly is then set free. Students thought about what they would wish for that would make the school year the best ever, and after sharing their secrets with the butterflies, the wishes - and the butterflies - took flight.
